Sprint 3 Plan, Detective Dollar

Detective Dollar Team. Completion by Monday 11/13/23

Goal: A list and line graph will display the past and current expense data. And other user interface additions will be added

Task Listing:

User Story 1: As a user, I will be able to look at my previous daily, monthly, and yearly expenses

- 1. Create a mockup to view previous daily, monthly, and yearly expenses. (< 45 mins)
- 2. Create a new page on the navigator where the past expenses will be displayed (< 30 mins)
- 3. Implement the "calendar" of past expenses (> 5 hours)
 Total for User Story: 6 hours

User Story 2: As a user, I will be able to see my past expenses in a line graph to see past trends in my spending

- 1. Create a new page to display the line graph (< 15 mins)
- 2. Determine the queries required to create the line graph (< 45 mins)
- 3. Design the UI for the line graph and implement it into the app (> 3 hours) Total for User Story: 4 hours

User Story 3: As a user, when adding an expense, I can add an image of the bill or receipt

- 1. Create an add image button to the add expense page (> 30 mins)
- 2. Create the UI to have the user select images from their library or allow them to take a photo (< 2 hours)
- 3. Store the imputed image so the user can look at it later (< 2 hours)
- 4. Create an info button on each expense on the home page that goes to a pop-up window with the image (< 2 hours)

Total for User Story: 6.5 hours

User Story 4: As a user, I will receive a pop-up when adding expenses to confirm my new expense

1. Create the UI to add the pop-up after the add expense button is pressed (< 2 hours) Total for User Story: 2 hours

User Story 5: As a user, when adding expenses, I can select a previously made category or add a new one

- 1. Create a drop-down with previous categories inputted (< 1 hour)
- 2. Have a field that allows the user to input the new category (< 30 mins)
- 3. Create a category table in db to store the category names (> 4 hours) Total for User Story: 5.5 hours

User Story 6: As a user, my expenses and expense charts will be displayed in my local time

- 1. Figure out the queries required to access the time zone from the user's device
- 2. Store the user's time zone...

Total for User Story: Undecided

User Story 7: As a user, after I add an expense, the input fields will be cleared so that I can easily add a new expense

1. Remove the current input from the fields after the add button is pressed (< 2 hours) Total for User Story: 2 hours

Team Roles:

Thomas: Developer/ Project Manager

Hersh: Developer/ UX designer

Rohan: Developer Ben: Developer

Cecile: Developer/ Scrum Master

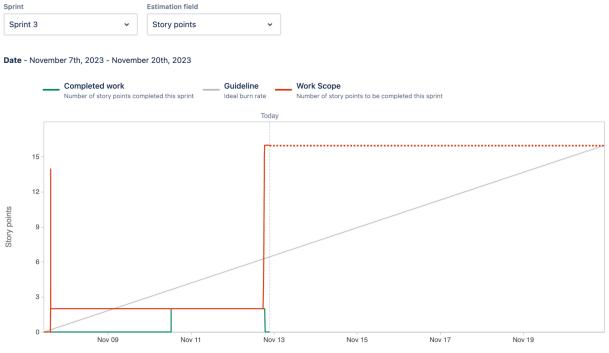

Initial Task Assignment:

Rohan → User Story: 6 Task: 1 - 2

Ben ➡ User Story: 4 Task: 1; User Story: 5 Task: 1,2; User Story 7 Task 1

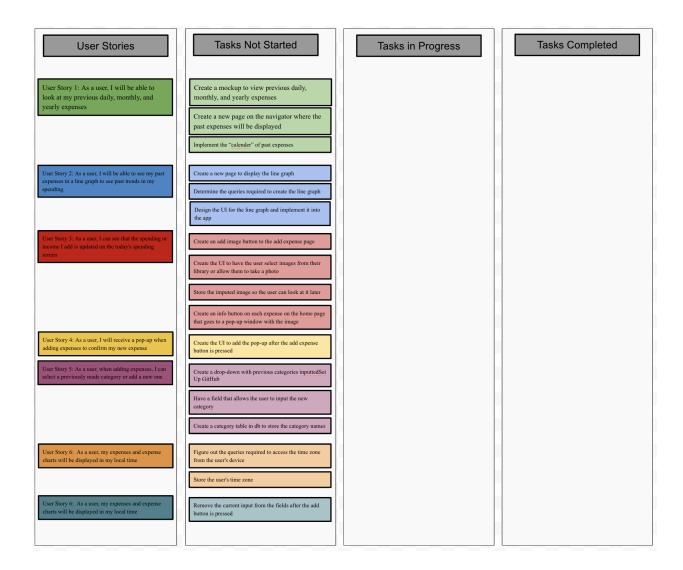

Initial Burnup Chart:

Date

Initial Scrum Board:

Scrum Times:

Mondays: 10am - 10:45 with TA Thursdays: 4:15pm - 5:15pm Sundays: 5:30pm-6:30pm
